

**Contingent Talent  
Management Program**

**Tetanus, Diphtheria & Pertussis (TDAP) Declination**

I have had the opportunity to review the latest CDC educational material (Vaccine Information Sheet TDAP 05/09/13) and ask questions regarding: 1) Tetanus, diphtheria & pertussis and their risks to health care personnel, and 2) the potential risks and benefits of the Tetanus, diphtheria & pertussis (TDAP) vaccine.

Please select ONE of the following:

- I have received the TDAP vaccine on {approx. date}.
- I have received the Td vaccine on {approx. date}
- I have elected NOT to receive the TDAP vaccine at this time. I understand that I may elect to receive the TDAP vaccine at a later time.

In Process

I understand that due to my occupational exposure to aerosol transmissible diseases, I may be at risk of acquiring an infection with pertussis. I have been given the opportunity to be vaccinated against this disease or pathogen with TDAP at no charge to me. However, I decline the TDAP vaccination at this time. I understand that by declining the TDAP vaccine, I continue to be at risk of acquiring, a serious disease. If in the future I continue to have occupational exposure to aerosol transmissible diseases and want to be vaccinated, I can receive the TDAP vaccination at no charge to me.
